Guías de repaso

Sr. Representante: La presente es una guía de ejercicios, con algunos contenidos programáticos desarrollados para la sala que su representado comenzara, son bases fundamentales del nuevo periodo escolar 2018-2019, en ella existen contenidos contemplados en el Ministerio del Poder Popular para la Educación para la sala inmediata superior, siendo superadas por el grupo en su mayoría de forma satisfactoria.

Por lo antes expuesto, agradecemos a usted: guiar, supervisar y orientar al alumno a la práctica de estos ejercicios en el periodo vacacional, recuerde que solo con la práctica lograremos la excelencia.

Nota:

Los contenidos de esta guía serán tomados en cuenta en la evaluación diagnóstica ejecutada por la Docente en las primeras semanas del inicio de clase correspondiente al Año Escolar 2018 – 2019.

Para los niños es importante que mamá y papá los acompañen en el proceso educativo ya que con su amor, protección y guía pueden fortalecer su autoestima y seguridad en sí mismos, disfrutando de cada momento juntos y construyendo hermosos recuerdos. Disfrute la oportunidad de ser testigo de los aprendizajes y logros de su pequeño.
